REV. E. WHITE.

The recent departure of this reverend gentleman, the Superintendent of Wesleyan Missions in the Nanaimo Circuit, calls for more than a passing notice. He came here in the spring of 1863, just when Nanaimo was laying aside her old and rusty garb to assume the more important and highly improved appearance which she at present wears. His valuable experience of pioneer life in Canada and his familiar acquaintance with the working of the liberal institutions of that free and enlightened British Colony, enabled him to render material aid, by way of counsel and advice, to those who were just commencing life anew and forming for themselves "a hearth and home" in this new and rising community. It is, however, in his official character, as a Christian Minister, where we see the beneficial influence of his worthy example and the satisfactory results of his wise and sagacious management in matters ecclesiastical. The lessening of his congregation by the formation of another sister church seems to have little retarded the general prosperity of his charge, and the congregation still continued large notwithstanding the gradual decrease of population during the late commercial depression. Mr. White certainly had the good will and respect of not only his own people, among whom he was universally beloved, but of all Protestant denominations here. At the farewell services held on Sunday, the 12th inst. when he preached to crowded congregations—in the afternoon in the Presbyterian Church, and in the evening at the Wesleyan—we noticed the presence of members of each of the three churches—Episcopalian, Presbyterian and Wesleyan—all uniting in Divine Worship, and showing thus by one common sentiment of union and brotherhood that healthy state of religious feeling which had been brought about as much by the instrumentality of Mr. White as by that of any other. The Rev. R. Jamieson evinced a most brotherly spirit by inviting Mr. White to his pulpit in the afternoon of the day alluded to, and also by giving up his own evening service in order to be present at and assist in the closing service of the day at Mr. White's church. Our sincere wish is that happiness and prosperity may attend him and his in his new sphere of labour. —Nanaimo Tribune.

SCOTTISH BAPTISM AT STAFFORD HOUSE.—An interesting rite was performed on Saturday last at Stafford House in presence of His Royal Highness the Prince of Wales and Her Royal Highness the Princess of Wales, and a number of noble persons, relatives of the family. It was the baptism of the infant daughter of the Duke and Duchess of Sutherland by the Reverend Dr. Cumming, of the Scotch National Church, Grosvenor Court, Covent Garden, according to the rites of the Established Church of Scotland. After reading Holy Scripture and requiring of the sponsors their confession of faith in the words of the Apostles' Creed, and receiving their promise to train up the child in the knowledge and practice of Divine truth, the Princess of Wales, according to Scottish custom, holding the child in her arms, presented her for baptism. The officiating minister then sprinkled water on the baby's brow, saying, "Alexander, I baptize thee in the name of the Father, and the Son and the Holy Ghost, Amen." He then prayed for the infant, for her parents, for the Queen, the Prince and Princess of Wales, and the rest of the Royal family, ending with the Lord's Prayer and the Apostolic benediction.

From a document communicated to Congress by the Postmaster-General it appears that there are over 70 telegraph offices in New York city, with a force of 375 persons; that there are now 30 wires between Washington and New York, and that nearly 100 wires leave the city of New York. The American and Western Union Companies have about 20,000 offices, with 5,000 employees. The names of thirty companies are given, with an aggregate capital of fifty millions of dollars, employing six thousand persons.

On the 5th of July last, there were 485,126 persons entitled to receive dividends of the English national debt. Of these no fewer than 127,721 received sums not exceeding £3 each. There were 96,415 not exceeding £5; 44,977 over £5 and not exceeding £10; 96,025 not exceeding £50; 24,462 not exceeding £100; and 13,882 not exceeding £200.

## OUR POLITICAL POSITION.

Those who have been constant readers of this journal, and who have watched the policy of Governor Seymour, and read his dispatches to the Secretary of State for the Colonies, cannot but see that all the leading political principles advocated by us have been adopted by His Excellency, and have become the Colonial policy of his administration. We are not so vain as to imagine that His Excellency has been influenced by anything we have been able to advance upon these subjects. Indeed, it would be paying our Governor a poor compliment to suppose that his mind has been so influenced and his policy shaped, by the emanations of any paper or party. The remarkable agreement perceptible between His Excellency's policy and our own, is susceptible of a very different and much higher explanation. No sooner did Mr. Seymour arrive in this Colony than he set about the task of informing himself with respect to the history and condition of the country. His Excellency, with an amount of industry and penetration rarely to be found, thoroughly mastered his work, tracing the policy of his predecessor from its earliest inception, carefully noting results and weighing motives; and if the result of this thorough investigation and critical analysis has been the adoption of a policy almost identical with that enunciated in the columns of the BRITISH COLUMBIAN ever since its establishment, the coincidence must be attributed rather to the fact that our own policy was the true policy of the Colony than to any influence our writings may have exerted over the energetic and profound mind of His Excellency. Indeed, it would be difficult to conceive of evidence more conclusive that we have correctly understood the circumstances and wants of the country, and the genius of its people, as well as truly and faithfully expounded popular opinion, than the simple fact that Mr. Seymour, who came amongst us entirely free from local bias or party predilection, who possessed every facility for obtaining correct information from all classes and all parts, and who spared no pains in collecting such information, has adopted opinions and views synonymous with our own. Of course, Victoria emissaries will take exception to all this. They will say that we represent the views of New Westminster only, and that popular feeling throughout every other part of the Colony is against us. This we must expect, and for this it is not difficult to account. It has, for the last year or two, been the aim and object of Victoria politicians to misrepresent the interests and wishes of our people. They have striven, with rather more zeal than discretion and truth, to convince the Imperial Government that all beyond New Westminster agree with them in politics and interest, that Mr. Seymour, on reaching the seat of his Government, at once surrendered to a political clique in the capital, that this clique occupies the position of the three celebrated "Tooley Street Tailors," in respect to the rest of the Colony. These people have spent their time and their means, together with what little talent they possess, for the purpose of impressing their peculiarly selfish views upon the Imperial mind; they have even gone the length of establishing and sustaining newspapers in the interior, in order to make it appear abroad that their views are the views of our settlers and our miners. But with what success all this has been done is sufficiently apparent from the terms of union proposed by the new constitution. The Secretary of State for the Colonies found the politicians of Victoria to be extremely unreliable, and it is scarcely to be wondered at that he should have turned to our Governor for that information necessary to guide him in dealing with the affairs of the Pacific Colonies. Nor is it surprising that, when so effectually checkmated by Mr. Seymour, and so signally defeated in all their machinations, these people should howl and show their teeth—that a last

desperate effort should be put forth in order to influence our elections, and create dissension in our Councils. In pursuance of this design it is highly probable that they will succeed in getting the editor of the Yale Tribune returned. It is for the electors of this district to say by their votes at the impending election, whether they will endorse and sustain the Governor by electing Mr. Robson, thereby doubling his power in the good cause, or whether they will "grossly gape on" and see the nominee of Victoria agents and of our in-becile Colonial Treasurer, backed up by the "rag-tag and bob-tail" element of officialdom returned to the House.

THE LECTURE.—Mr. Leigh Harnett, of San Francisco, who is amongst us in the interest of the Pacific Coast Directory, now in course of publication by Mr. Langley, kindly consented to deliver a lecture upon "The Genius of England and America." The lecture was delivered in the Hyack Hall, on Monday evening, under the auspices of the fire company, and was highly successful. Although the first intimation was not given until Monday, the spacious hall was well filled. The firemen turned out in uniform, and the excellent Hyack Brass Band was in attendance. Mr. Harnett is an eloquent and interesting speaker. He is an Englishman of 17 years experience in California, and consequently peculiarly qualified to do justice to the subject chosen for the lecture. Perhaps the highest eulogium we can pass upon him is simply to state that he succeeded in commanding the earnest attention of his auditory for the space of two hours and eight minutes! The lecturer was peculiarly enthusiastic when treating upon the varied and immense resources and destiny of British Columbia and Vancouver Island. A hearty vote of thanks was passed by the meeting for the able and interesting lecture, when the audience dispersed. It is a matter of regret that the people of New Westminster have not more frequent opportunities of listening to lectures upon subjects calculated to improve the intellect and stir up the latent energies.

## NEW WESTMINSTER.

GENTLEMEN:

In reply to a numerous signed requisition, I now offer myself as a candidate for a seat in the next Legislative Council of this Colony, feeling sure my principles are so well known to you all that I can confidently expect the cordial support of my friends.

Having previously been a representative of the people, not only in the Legislative Council, but also on the Mining Board in Cariboo, my past experience will better enable me to fulfil the duties devolving upon your representative should you return me as your member. The following being the principal questions which will probably occupy the attention of the Council during the ensuing session I now beg to submit my views upon them to you.

Upon the question of Retrenchment, I am of opinion that a considerable reduction can be made in all branches of the Civil Service without affecting its efficiency.

I would favor a system of National Schools throughout the Colony.

I would support any measure having for its object the suppression of smuggling or sale of liquor to Indians.

With reference to the Agricultural interests of the Colony, I would advocate that free grants of land be made to bona fide settlers; that a tax be levied on all unimproved lands; that the vexatious Indian land question should be at once adjusted; and that all Government Reserves should be thrown open. I would further advocate a tax on orchard produce, to protect the fruit growers of this Colony against those of Oregon and Washington Territory.

I don't think that Union with Vancouver Island will be beneficial to this Colony, but I am prepared to support the proposed Annexation Bill.

I am in favor of any Homestead Law that will assist the settler without being injurious to the creditor.

I advocate the total abolition of Tonnage Dues and the construction of Roads throughout settled districts in the Colony.

I will, if returned, support any Bills that may be brought forward, which I believe would tend to advance the interests of the Colony or those of my constituents.

I am, Gentlemen,

Your obedient servant,

A. W. S. BLACK.

## TO THE ELECTORS OF THE

City and District of

## NEW WESTMINSTER.

FELLOW COLONISTS.

A General Election is at hand, and you are called upon to select a man to represent your interests in the Legislative Council of the Colony. I have consented to offer myself as a candidate for your suffrages, your old and faithful representative having retired.

Having addressed you twice a week, during the past six years, through the columns of the BRITISH COLUMBIAN newspaper, upon nearly every important public question which has arisen, it will not be necessary for me now to enter into any lengthened exposition of my political views and principles; but inasmuch as it is expected of a candidate to enunciate his creed, in coming before the people for their suffrages, I shall touch briefly upon a few of the more prominent topics, which occupy the popular mind at the present time. If you should do me the honor of electing me to represent this most important constituency in the Legislative Council, I shall support, amongst others, the following measures:

1. The question of union, so long and so variously advocated by the people of Victoria, and so uniformly spurned by the people of British Columbia, has recently assumed an entirely altered aspect. The Imperial Government has, as you are aware, decided to incorporate Vancouver Island with British Columbia, upon conditions already sufficiently known to you; provided the Legislatures of both Colonies should accept the new constitution. Although British Columbia has little to gain by such an acquisition I am disposed to view incorporation upon the terms proposed as perhaps the most ready and effective means for putting an end to agitations replete with injury to both Colonies.

2. Retrenchment in the Civil Service; for, although with the contemplated changes in the constitution and territorial boundaries of the colony the necessity for retrenchment may undergo some modification, still there would, I apprehend, be considerable room for a reduction in the expenses of some of the Government Departments.

## New Advertisements.

3. Abolition of the Tonnage Dues, if not in whole, in so far as they apply to articles of Home product or manufacture, and a healthy protection for agriculturists near the seaboard against foreign competition.

4. A wholesome Homestead Law, carefully guarding the settler against oppression, on the one hand, and the creditor against fraud on the other.

5. Free grants of land to all actual settlers, and a tax upon wild land held purely for speculative purposes, the revenue derived from such tax to be expended in constructing roads in the districts where collected.

6. A speedy and final adjustment of the Indian land question, securing to the Native Tribes a reasonable amount of land for actual use, and no more; and the throwing open of the remainder, and of the numerous Government reserves created during the late Administration, to the actual settler.

7. The construction of main roads through all the settled districts, so as to bring the Agriculturists into connection with the markets of the colony.

8. More stringent measures for the suppression of the smuggling and illicit whisky trade so extensively carried on between Victoria and the Indians along our seaboard.

9. An immigration scheme by which families and farm laborers might be assisted in reaching a Colony peculiarly fitted to receive and employ them.

There are various other questions of great importance, such, for instance, as that of the Federation of all the British Possessions upon this continent, which it would be impossible, as it is unnecessary to discuss in the present address.

I shall, however, be happy to avail myself of any opportunity which may present itself of meeting you for the purpose of enunciating my views more fully, and answering any questions which may suggest themselves.

I have only to say, in conclusion, that if an honest, and I may truly affirm, a laborious zeal for the interests of this my adopted country have given me any claim to your confidence and esteem the only return I ask is that you will, by your votes, place me in that position which of all others will enable me the most effectually to labor for the promotion of your best interests.

I have the honor to be, Fellow Colonists,

Your most obedient servant,  
JOHN ROBSON.

## NOTICE.

THE Public are respectfully informed that James Codville, of the wide renowned Codville Landing Ranch, is prepared to receive any number of animals and cattle to ranch this coming winter, on the most liberal terms.

Large Reductions from the regular price made in favor of trains.

Persons intending wintering their own stock can be accommodated with Hay in the stacks and stables and sheds for their animals, and Houses for themselves, on the most reasonable terms.

The Ranch is situated on the opposite side of the Fraser from that of Sumas, is on an island 6½ miles long by 4½ wide, is high and dry, no place where animals can mire, well protected from north winds, free from any kind of poison weed, and affords every facility, natural and artificial, for the accommodation of stock.

James Codville would also call public attention to the fact that he is prepared to furnish Hay at a very reduced price, and in quantities to suit all purchasers.

In returning thanks to the Public for past patronage, I am in hopes that the good condition in which I turned out animals on former seasons will secure for me a share of the Public patronage this coming winter.

Horse covers, pack saddles, and all rigging taken care of, and every satisfaction given for the least possible charge to those who may entrust their stock to me, or order Hay.

AGENTS.—DIERZ & NELSON, New Westminster. A. Binstow, Esq., Yale.

Remember Codville Landing, not Sumas. An Hotel open and a ferry from the 1st October, for the traveling Public.

### ELECTION MISREPRESENTATIONS.

We have been given to understand that Dr. Black's friends have been trying to create a sort of sympathy by representing that Mr. Robson has an undue advantage, in being editor of, and, of course, having unrestricted access to the columns of, the only newspaper published in the place, leaving it to be inferred that Dr. Black and his friends would be debarred from advocating his cause in the British Columbian. Had we ever laid ourselves open to the charge of closing our columns against any party or side, because opposed to our own views or interests, there might be some excuse for resorting to what, under all the circumstances, we must characterize as a not very honorable "electioneering trick." Dr. Black or his friends have never applied to have any communication or article published, if we except his address; and to come to the conclusion that they would be refused is most unwarrantable, while to try to make others believe that they would be so treated is dishonourable. Were we to adopt a course at once so illiberal, one-sided and unfair we would not only prove our unfitness to take a seat in the Legislature of our country, but we would prove ourselves unfit to occupy our present position as editor of the only newspaper published here. During the six years we have occupied the editorial chair we have at all times been ready to publish communications without the slightest regard to the sentiments therein set forth agreeing or disagreeing with our own views or interests, and no one knows this better than Dr. Black and his friends. It may appear almost superfluous for us to condescend to notice the misrepresentation alluded to; but we may add, while upon the subject, that the columns of this journal are just as freely open to Dr. Black and his supporters, during the present contest, or at any other time, as they are to Mr. Robson and his supporters. We are neither so cowardly nor so selfish as to take a mean advantage, even in an election contest. Let the Doctor send in his article of charge, the only conditions required being those which regulate communications generally.

**INCENDIARISM.**—We stated last week that the origin of the two fires which occurred on Thursday night was involved in mystery. The circumstances under which they occurred, taken in connection with subsequent events, leave little room to doubt they were the result of a villainous design to destroy property, and that there are one or more miscreants in our midst bent upon mischief. On Saturday night a man, unknown, was detected by the night-watchman in the act of setting fire to the Hon. Mr. Hamley's stables. The fellow made good his escape, although several shots were fired after him. On the same night Capt. Stamp's stables were entered; but here again the vigilance of our excellent watchman defeated the schemes of the villain or villains. We would suggest the propriety of the Chief Inspector of Police taking immediate measures for increasing the efficiency of the night-watch by increasing its numbers. Mr. Howe is, we believe, "the right man in the right place," but with all his ability, and diligence, he is not omnipresent, and cannot possibly guard all points. He should have one or two assistants, and that without delay, and he himself ought to be properly appointed, and sufficiently remunerated, which he assuredly is not at present.

**DENTISTRY.**—Dr. G. W. Cool, dentist, has arrived and those who want his services had better call immediately as he will only remain a few days. Office at the Colonial Hotel.

**THE ELECTION.**—E. H. Sanders, Esq., has given notice for the election in the Yale, Lytton district, to take place on the 20th. No notice has yet been issued here!

**CUSTOMS RECEIPTS** for week ending Saturday, Sept. 8th.—Duties \$1,932 02; harbor dues \$103 72; head money \$48 00; tonnage dues \$367 12; fines and seizures \$102 90. Total \$2,675 76. Number of passengers 48.

**FROM VICTORIA.**—The steamer Enterprise, Capt. Swanson, arrived from Victoria last evening. The Victoria papers contain very little news. We regret exceedingly to observe that the Presbyterian Church of that town is the subject of a very unseemly disruption, resulting in the severance of the Rev. Mr. Somerville's connection with Pandora street Church, and a determination on the part of himself and those who adhere to him to build a new Church and organize another congregation, to be in connection with the Established Church of Scotland, a step which can hardly fail to injure the cause of Presbyterianism there. We have no desire, nor are we in a position, to judge between these contending parties; but we cannot help thinking that our neighbors are in matters ecclesiastical very much the same as they are in matters political—an unmanageable, extreme, inconsistent set; one day idolizing a man and the next ruthlessly persecuting him. Mr. Somerville is a talented young man and a popular preacher, circumstances which render this unseemly schism all the more to be regretted.

**FROM THE INTERIOR.**—The steamer O'ward, Capt. Irving, arrived from Yale yesterday, bringing a number of miners and others, and Cariboo mails and express. We are in receipt of Cariboo papers to the 3d inst., containing, however, very little of interest. The Yale Tribune of Monday is also before us. It is published a requisition to the editor of that paper asking him to allow himself to be put in nomination as a candidate to represent that district in the Legislative Council. The requisition bears sixty-nine signatures, amongst which we observe the names of the principal inhabitants of Yale. Mr. Wallace accepts the invitation, and expresses his political policy at some length. His programme is not a bad one, as a whole, if he only acts up to it. We understand he is not likely to be opposed, and we are disposed to think that it effected he will be an improvement upon "the gentleman of the seventeenth century."

**THE PUBLIC MEETING** held in the Rifle Drill Shed on Saturday evening was not quite so numerously attended as might have been expected, yet it fairly represented the community. The President of the Municipal Council opened the meeting, and called upon those present to appoint a Chairman, when Captain Cooper was voted to the Chair, and Mr. John Murray chosen secretary. After some discussion as to which candidate should take precedence, Mr. Robson, being loudly called for, stepped forward and addressed the meeting. His address occupied a little over an hour, and was listened to attentively. Dr. Black then came forward, and occupied the attention of the audience for about half an hour. We have not room, nor do we deem it necessary here to give even a synopsis of the addresses. No other speakers being forthcoming the meeting was adjourned. The meeting was quiet and orderly; indeed it rather partook of the characteristic vulgarly called *flat*.

## TELEGRAPHIC.

SPECIAL DISPATCH TO THE "BRITISH COLUMBIAN."

### EASTERN STATES.

**NEW YORK, Sept. 8.**—Seven cases of cholera were reported in this city to-day, but none fatal.

The Santiago de Cuba has arrived with San Francisco passengers, via Nicaragua.

Our Consul at Liverpool writes to the State Department that large quantities of rags are being exported from this country to the United States, and it seems now to be admitted, at least in this country, that all clothing, etc. from persons having cholera, which became infected, has been sold for such purpose, and that there is great danger of spreading the disease by such clothing. There is not only a possibility, but probability that infected rags are to be mixed with those that are now being sent, and it would be well for the health authorities of different ports to look after these importations, and when any doubt arises, to have them disinfected.

**BUFFALO, Sept. 7.**—The Express published a letter taken from a Hamilton, Canada West, paper, said to have been picked up in the streets, containing an intimation of a plot to burn Buffalo. It was stated sometime since that there was a plot to burn the towns along the Northern border. The whole thing is thought to be a bore.

**NEW YORK, Sept. 8.**—Ten new cases of cholera and three deaths were reported yesterday. The weather has changed perceptibly, and it is hoped the disease would again abate. Three fresh cases of cholera occurred in Brooklyn yesterday. Forty-five deaths from all causes.

The Times New Orleans special dispatch, says a private letter from Monterey says Maximilian advocates in favor of France Napoleon on the 10th.

It is said that a new effort is being made to persuade Gen. Sheridan to resign and accept command of the Irish army. At headquarters of Stephen's wing of Fenians, in this city, arms and ammunition are being received in large quantities.

Orders have been issued to the volunteers to be in readiness to march to the border.

## THE BRITISH COLUMBIAN.

The Herald's Ottawa, Canada, dispatch says orders have been issued to Quebec volunteers to hold themselves in readiness to march to the frontier. The engineers stationed at Quebec also received orders to be ready to march on or about the 23d of this month, to the border. They will be engaged in the protection of defenses along Lower Canada frontier. The Canadians hope further divisions will arise in the Fenian Brotherhood from Troy Congress. Government agents are believed to be at work in Troy.

The Herald's Troy dispatch says the Fenian Congress concluded their secret session yesterday. From some talkative members it has been ascertained that a vote of thanks to Gen. Banks for his neutrality resolutions was adopted. Chicago, Sept. 8.—The damage to the Philadelphia Union League house, by fire, is about forty thousand dollars. A large reward is offered for the arrest of the incendiary. The Janitor has been arrested.

PHILADELPHIA, Sept. 7.—The Southern Unionist's Convention adjourned sine die yesterday afternoon. New York, Sept. 10.—The Herald's Troy, N. Y., special says the Fenian Congress adjourned sine die yesterday, having been in session all Saturday night. Roberts was re-elected President, Mahoney President of the Senate, and Gen. Sweeney was deposed from the position of Secretary of War. No successor was appointed. His accounts are satisfactory but he was believed to be incompetent. Gen. O'Neill was appointed Inspector General of the Irish Republican Army. Col. Bailey chief military organizer. It was hoped Gen. Sheridan would be prevailed upon to accept the chief command.

Another movement on Canada will undoubtedly be made during the fall, if contributions are plentiful.

### EUROPEAN.

**NEW YORK, Sept. 10.**—The following foreign items were received by the City of Boston: Count Bismarck delivered a most significant speech in defence of the German annexation policy. He declares Prussia must lay hold on and keep what is offered, or that a European Congress would produce; that the Congress determined and able to defend its new territorial acquisitions. He believed the consolidation of the power of the Prussian Crown strengthened German unity.

The French commander of camp at Chalons, in dismissing the troops, addressed the soldiers by order of the Emperor, calling attention to the fact that the Austrians and Russians, by telling them to ever cherish the memories of Vienna and Austria.

It is reported the insurgent Poles in Siberia have defeated the Russian regiments, and being joined by revolutionary assistants, have moved towards the frontier. The Upper House of which Napoleon I. deposed the Emperor, is now in session, and is passing a bill to indemnify the King for acting without the assent of the Diet in the matter of the budget and army supplies.

The Chamber of Deputies rejected the Government proposal for the issue of sixty millions in treasury notes, and put in an amendment authorizing the issue of thirty millions, payable in one year.

It is reported that the King of Saxony has decided to resign in favor of his son.

MADRID, Sept. 10.—Papers state that the recent visit of the Queen of Spain to Eugenie was of a political nature.

LOS ANGELES, Sept. 10.—The Directors of the British California Bank are urged toward the affairs of the institution.

Lord Stanley is spoken of as successor to Lord Cowley, as British Ambassador to France.

ST. PETERSBURG, Sept. 10.—It is said the tribes of Daghestan have revolted against the authority of the Czar.

Fontenay, Sept. 10.—The conference between the plenipotentiaries of Austria and Italy progresses slowly.

The Italian Government has issued a decree which disbands 58,000 men.

Austria has invited Italy to send plenipotentiaries to meet others appointed by Austria for the purpose of adopting measures for the improvement of telegraph and post communications between the two countries.

ATHENS, Greece, Sept. 8.—The Cretans have accepted the terms offered by the Turkish Government and continue in revolt. The inhabitants of Epirus also claim their freedom from Turkey, and have abandoned their habitations and taken to the hills.

### CALIFORNIA.

**SAN FRANCISCO, Sept. 8.**—The steamer Yosemite was discovered to be on fire at 4:30 o'clock this morning, while lying at her berth, Broadway wharf. She had brought down from Sacramento a large amount of grain which had been safely discharged on dock. All hands, therefore, were fortunately up when the fire was first seen. The alarm was given promptly, and water from the wharf pipes turned on. Damage about \$1500.

The steamer Julia will take the place of the Yosemite to-day.

A dispatch from New York announces the safe arrival at that city on the 7th of September by the Central American transit Co.'s steamer Santiago of passengers who left San Francisco by the Moses Taylor on the 5th of August.

Gold in New York yesterday, 145 to 146. Sterling was firmer at 107.

Arrived, Sept. 7.—brig Hugh Barclay, 15 days from Port Discovery with lumber.

Sailed, Sept. 8.—steamer Active, for Victoria and New Westminster.

**SAN FRANCISCO, Sept. 8.**—The British brig Ann Sanderson, sailed from Yokohama, Japan, for San Francisco, on the 7th of June, deeply laden. Shortly after her departure a sudden and most severe hurricane was experienced along the coast of Japan, accompanied with frequent whirlwinds, during which the brig is supposed to have foundered.

The vessel and cargo were consigned to Brooks & Co. of this city. The Ann Sanderson being now 94 days out, no tidings having been received since the supposition that she is lost is doubtless correct. She had two or three passengers on board, and her cargo is insured with China agents of British companies.

Total number of deaths in this city last week was only 49.

## THE BRITISH COLUMBIAN.

Several attempts at incendiarism were made in different parts of the city last night, but all were fortunately extinguished before much damage was done.

### BRITISH COLUMBIA.

**LYTTON, Sept. 10.**—Weather clear and warm; no wind. Judge Saunders arrived from Yale last night to hold County Court, and will proceed to-day to try the several cases awaiting him. Mr. Evans, constable from Iloodet, is here on his way to New Westminster with the Indian prisoner convicted at that place by Judge Bigbie of horse stealing.

**CLINTON, Sept. 10.**—Weather fair and warm. Slight northerly wind. Thermometer 76 in shade.

**HOPE, Sept. 10.**—Thermometer 65. Weather clear, no wind.

**QUESNEL, Sept. 10.**—Fine and clear; thermometer 59.

**YALE, Sept. 10.**—Weather clear and sultry; thermometer 78. Nothing new. Eighty-three-mile horse, Sept. 10.—Mercury 60 in shade, strong north-west wind, and cloudy.

**SODA CREEK, Sept. 10.**—Thermometer 80, calm and clear.

**CLINTON, Sept. 11.**—Weather clear; no wind; thermometer 65.

**SODA CREEK, Sept. 11.**—Thermometer 40; calm and clear.

**HOPE, Sept. 11.**—Thermometer 70 in the shade; weather fine and clear.

**LYTTON, Sept. 11.**—Weather clear and warm; no wind.

**83-MILE HOUSE, Sept. 11.**—Thermometer 57 in shade; weather clear and no wind.

**YALE, Sept. 11.**—Weather clear and winny; thermometer 78.

### TO THE ELECTORS OF NEW WESTMINSTER.

FELLOW ELECTORS.—Some wise man or other has said, "In counsel is stability." I do not assume to be more wise than my neighbors, but there are a few thoughts touching the "coming struggle" which I would respectfully submit for the consideration of the Electors of this City and District.

In the first place let us ask the question, What difference is there in the political creeds of our candidates? None, so far as I can discover. The very language is almost identical. Compare the two addresses, which you will find in the British Columbian, and see for yourselves. It would seem as if the discovery of all our political wants had been made by the two candidates, like several great modern discoveries—the eighth moon of Saturn, for instance—simultaneously. The few hours (some 24 or so) that elapsed between the appearance of Mr. Robson's address and the birth of the Doctor's being—in a matter of this kind it might be considered illiberal to speak otherwise—quite unappreciable. Seeing, then, that they are mentally one and indivisible in measures, the difference (presupposed by the existence of adherents) must be as men.

Now, let us calmly consider the intellectual and practical business aptitude of the two men, for the position they aspire to. Mr. Robson has, for the last five or six years, originated some and written upon all the political measures that have appeared for the advancement of the Colony. He has lived and moved in an atmosphere of politics. He is, in a word, *au fait* at the work.

Dr. Black has held a seat in the Legislative Council, it is true, and no doubt honestly and to the best of his ability discharged his senatorial duties. But, as Edmund Burke says, "The sides of sick beds are not the academies for forming statesmen and legislators." There was really nothing very conspicuous in anything the Doctor did—certainly nothing to justify his again thrusting his mediocre talents as a legislator on the community. So much for the political capabilities of our respective candidates.

But there is another phase more important for our consideration than the mere opposition of Dr. Black—a phase to which it is hoped this community will give the most mature consideration. "Circumstances (which with some gentlemen pass for nothing) give its reality to every political principle its distinction, its coloring and its discriminating effect. The circumstances are what render them every civil and political scheme beneficial or noxious to mankind." It is circumstances, not general understanding or discovered, which invest the present election with a peculiar character, and render Dr. Black's opposition exceedingly ill-timed. It is well known that there is every likelihood of the Editor of the Yale Tribune being returned for the District of Yale and Lytton (It would seem as if he is to be allowed to walk the course.) This gentleman (Mr. Wallace) was the editor of the Cariboo Sentinel, the paper alluded to by Governor Seymour, in his letter from the Rue de la Paix. The Governor says, "A newspaper was started in that district (Cariboo) especially to advocate union and oppose the local Government. The ministers merely protested against the 'scurrility of their professed organ, and when extraneous assistance was withdrawn it died from want of support.' Has Mr. Wallace changed his tactics? In issue after issue of his paper (the Tribune) does he not declaim as vehemently as ever against British Columbia and its institutions? There are mountains for the political body as well as mountains for the natural body. This 'preaching trier' has reared his 'political' in Yale and publishes his political heresies as unblushingly as ever. Extraneous assistance has again been afforded him, and the

cope-stone of Victorian ambition is about to be laid by his getting a seat in the Legislative Council of British Columbia. What a parody on our representation! What a stain on its purity! What an insult to the feelings of our excellent and patriotic Governor! The able and exhaustive Parisian letters of the Governor express the sentiments of every true British Columbian. To give an active Colonial force to his views should be the aim of every one of us—and every one should stand by the facts, as they were exposed to our Governor when he was amongst us, from the very fact that he expounded truths as they existed and do exist. What unworthy, recreant beings he must think us, if we do not do all we can to must completely destroy, the baneful effect of alien power. How can we best accomplish this? Simply by returning Mr. Robson to the Legislative Council as a counterpoise. His incessant and able advocacy of those views so clearly placed before us in the Governor's letters—his earliest assertion, on all occasions, of what he considered the people's rights—invest him with strong and peculiar claims on the suffrage of the people of this Colony, and particularly of this City and District. Therefore, I trust you will do that which would be just, and place Mr. John Robson at the head of the poll a sweeping majority. By this you will do the right thing at the right time, and put the right man in the right place. Most respectfully, your obedient servant, JAMES SYME.

New Westminster, Sept. 10, 1866.

### THE VAIN JACKDAW.

To the Editor of the British Columbian.

SIR.—"A Jackdaw," says the Vicar of Sibbertoft and Theddingworth, "as vain and conceited as Jackdaw could be, picked up the feathers which some Peacock had shed; stuck them amongst his own, and dispiriting his old companions, introduced himself with the greatest assurance into a flock of those beautiful birds. They, instantly detecting the intruder, stripped him of his borrowed plumes, and falling upon him with their beaks, sent him about his business. The unlucky Jackdaw, sorely punished and deeply sorrowing, bemoaned himself to his former companions, and would have flocked with them again as if nothing had happened. But they, recollecting what airs he had given himself, drummed him out of their society, while one of those whom he had so despised, read him this lecture:—'Had you been content with what nature made you you would have escaped the chastisement of your betters and also the contentment of your equals.'"

While listening, on Saturday evening, to Dr. Black's enumeration of the various resolutions either moved or seconded by him, while in the Legislative Council, the above fable was forcibly brought to my mind. Everyone of the resolutions for which the Doctor claimed so much credit, either as mover or seconder, and to which he alluded as evidence of his fitness to legislate, were prepared by others—chiefly by the gentleman at that time representing Cariboo East, I believe—and placed in his hands. The resolution in respect of which he claimed especial credit—that upon the subject of union—was prepared by the member alluded to, and Dr. Black was asked to second it, simply to meet the cry raised in Victoria, even at that period, that opposition to union was confined to New Westminster. I am in a position to state that during his legislative career Dr. Black never originated an idea, or became the author of a single resolution, much less a public measure; nor do I believe he has the ability to do so. I leave it to your readers to apply the fable above quoted, and I recommend the Doctor to mark, learn and inwardly digest the moral at the end of it. M.L.

**TOYS AND FANCY GOODS.**—G. C. Clark and Co. having made large additions of the above Goods to their stock, any one wishing to make a present would do well to give them a call, as they have a great variety of nice, neat and pretty articles of vertu which are useful, and at the same time will please the eye and adorn a table or mantel-shelf.

**HOLLOWAY'S PILLS.**—The most popular medicine for the cure of female complaints.—After many years experience, it is incontestably proved that there is no medicine equal to Holloway's Pills for the cure of diseases incidental to females—their invigorating and purifying properties render them safe and invaluable. They may be taken by females of all ages for any disorganization or irregularity of the system, speedily removing the cause—thus restoring the sufferer to robust health. As a family medicine they are unequalled, and may be taken by old and young, restoring health and energy after every other means has proved unsuccessful.

**THE GRAND PROMOTERS OF HEALTH.**

**HOLLOWAY'S PILLS.**

The grand secret of attaining happiness is to secure good health, without which life is stripped of all its pleasures. The first irregularity of any function should be checked and set right by appropriate doses of these Pills, which strengthen the system by thoroughly cleansing the blood from all impurities. They balance disordered action, remove the cause of disturbance, and restore its normal and natural power to every organ, without inconvenience, pain, or any other drawback.

**Derangement of the Bowels, Liver and Stomach Complaint.**

This medicine is so well known in every part of the world, as the cures effected by it are so wonderful, as to astonish everyone. Its pre-eminence as a remedy for bilious and liver complaints, and derangements of the stomach and bowels, is no longer a matter of dispute or doubt. In these diseases the beneficial effects of Holloway's invaluable Pills are so permanent and extensive that the whole system is renovated, the organs of digestion strengthened, and an uniform and healthy condition promoted, so that both physical and moral energy are increased.

**Determination of Blood to the Head.**

This is generally occasioned by some irregularity of the stomach and bowels, which, if not quickly attended to, frequently terminates fatally. A few doses of these famous Pills never fail to give tone to the stomach, regularity to the secretions, and purity to the fluids. Vertigo, dimness of sight, and other indications of approaching apoplexy, are entirely dissipated by a course of this admirable medicine.

**The Female's Best Friend.**

For all debilitating disorders peculiar to the sex and in every contingency previous to the life of women, youth, full or aged, married or single, this mild, but speedy remedy is recommended with friendly earnestness. It will correct all functional derangements to which they are subject.

**Scrofula and all Skin Diseases.**

For all skin diseases; however inveterate, these medicines are a sovereign remedy. While the Pills act upon the system, they purify the blood, and cleanse every structure, as water saturates the soil or as salt penetrates meat. The whole physical machinery is thus rendered healthy, regular and vigorous.

**Coughs, Colds and Asthmas.**

No medicine will cure colds of long duration or such as are settled upon the chest so quickly as these famous Pills. Even in cases where the first stages of asthma have appeared, these Pills may be relied upon as a certain and never-failing remedy, particularly if the Ointment be simultaneously well rubbed into the chest and throat night and morning.

**Indigestion.—Bilious Headache.**

These complaints may sometimes be considered trifling but it should be borne in mind that, by inattention and neglect, they often end most seriously. Give early thought to a deranged stomach, take Holloway's Pills, rub his celebrated Ointment over the pit of the stomach, and you will shortly perceive a change for the better in your digestion, spirits, appetite, strength and energy. The improvements, though it may be gradual, will be thorough and lasting.

**Holloway's Pills are the best remedy known in the world for the following diseases:—**

Ague, Female Irregularities, Scrofula, or King's Evil, Bilious Complaints, Dropsy, Stomachic Disorders, Piles, Hemorrhoids, Constipation of the Bowels, Liver Complaints, Consumption, Debility, Rheumatism, Retention of Urine, Erysipelas, Skin Diseases, Head-ache, Tooth-ache, Neuralgia, Catarrhs, Inflammations, Venereal Affections, Gout, Gravel, Dropsy, whatever cause, whatever season, whatever climate, whatever age, sex, or condition.

Sold at the establishment of PROFESSOR HOLLOWAY, 244, Strand, (near Temple Bar) London; and by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices:—1s. 12d., 2s. 6d., 4s. 6d., 11s. 2s., and 3s., each Box.

There is a considerable saving by taking the larger size.

N. B.—Directions for the guidance of patients in every disorder are affixed to each box.
